

Nicolás Sira

C#/.NET Backend Developer | SQL Server · PostgreSQL · Angular · React

Puerto de la Cruz, Tenerife, Spain | Remote and open to relocation
Email: nasd0408@gmail.com
LinkedIn: linkedin.com/in/nicolas-sira | GitHub: github.com/nasd0408
Portfolio: nasd0408.github.io/nicolas-sira-portfolio/

PROFESSIONAL SUMMARY

Informatics Engineer focused on C#/.NET backend development and SQL. Builds compliance software for financial institutions and independent products with APIs, relational databases and production deployments. Uses Angular and React to deliver the interface when needed.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET, REST APIs, SignalR.
Supporting frontend: Angular, React, TypeScript, React Native.
Data and delivery: SQL Server, PostgreSQL, SQL modeling, IIS, DigitalOcean, Git. Quality: Cypress and E2E testing.

PROFESSIONAL EXPERIENCE

Full Stack Developer (backend focus) | Agile Check

July 2025 - Present | Remote

- Develop compliance software for financial institutions using C#/.NET, Angular and SQL Server.
- Deploy multi-client environments on IIS and support on-premises installations for banking clients.

QA Automation Engineer | ChicksGroup

July 2025 - May 2026 | Remote, Canada

- Designed end-to-end test suites with Cypress for critical user journeys, integrated into continuous integration workflows to catch failures before production.

Head of IT | Grupo Super Cauchos

October 2023 - June 2025 | Venezuela

- Managed IT for a 30-person company, including internal tools, Odoo and SAINT ERP continuity, and vendor coordination.
- Built Power BI dashboards to support operational analysis and business decisions.

SELECTED PROJECTS

FlotalQ | Fleet management SaaS platform

- Designed and deployed a multi-tenant C#/.NET and PostgreSQL backend for fleet, trips, maintenance, fuel and billing; SignalR provides real-time alerts and React provides the interface.

CuadreAPP | Mobile app for beauty businesses

- Built a C#/.NET backend for appointments, clients, debts, payroll and reporting; connected it to a React Native app with offline operation and later synchronization.
- Published on Google Play with over 100 downloads.

EDUCATION

Degree in Informatics Engineering | Universidad Centroccidental Lisandro Alvarado Venezuela | 2024
